ABSTRACT

This sample paper describes the formatting requirements for Conference Proceedings, and this sample file offers recommendations on writing for the worldwide readership. Please review this document even if you have submitted to SCS conferences before because some format details have changed relative to previous years.

Author Keywords

Guides; instructions; author's kit; conference publication; keywords should be separated by a semi-colon.

Optional section to be included in your final version, but strongly encouraged.

ACM Classification Keywords

I.6.1 SIMULATION AND MODELING (e.g. Model Development). See: <https://www.acm.org/publications/class-2012> for more information and the full list of ACM classifiers and descriptors.

Optional section to be included in your final version, but strongly encouraged.

1 INTRODUCTION

This format is to be used for submissions that are published in the conference proceedings. We wish to give this volume a consistent, high-quality appearance. We therefore ask that authors follow some simple guidelines. In essence, you should format your paper exactly like this document. The easiest way to do this is simply to download a template from the conference website, and replace the content with your own material. To obtain Word doc and Latex templates, please refer to the Author's Kit on the SCS webpage.

2 PAGE SIZE AND COLUMNS

On each page your material should fit within a rectangle of 18 x 23.5 cm (7 x 9.25 in.), centered on a US letter page (21.59 x 27.94 cm; 8.5x11 inches), beginning 1.9 cm (.75 in.) from the top of the page, with a .85 cm (.33 in.) space between two 8.4 cm (3.3 in.) columns. Right margins should be justified (i.e. fully-justified), not ragged (except for the references section). Beware, especially when using this template on a Macintosh, Word can change these dimensions in unexpected ways. **Please be sure your word document and pdf are US letter and not A4. If your pdf or paper are formatted for A4, the submission will be returned to you to fix within 2 days.**

3 TYPESET TEXT

Prepare your submissions using Microsoft Word or Latex templates.

3.1 Title and Authors

Your paper's title, authors and affiliations should run across the full width of the page in a single column 17.8 cm (7 in.) wide. The title should be in Ariel 18-point bold; use Helvetica if Ariel is not available. Authors' names should be in Times New Roman 12-point bold, and affiliations in Times New Roman 12-point (not bold, nor italic).

Please use full international addresses. Leave two 10-pt lines of white spaces below the last line of affiliations.

For the anonymous review copy of the manuscript, omit the authors' names and affiliations. Please leave the name area as shown in template as it is now for review.

3.2 Adding and Removing Author Fields Above

If you need a 4th block for an additional affiliation, click on the table, click "layout" under "table tools", and click "insert left" or "insert right". Then right-click anywhere on the table, click "Table Properties", and within the "Table" tab, click the tab box for "Preferred Width" and enter "7".

If you need only 1 or 2 affiliations, you should remove one column from the table. Right-click in the unwanted cell, click "Delete Cell", click "Delete entire column", then click "OK". Repeat if necessary. Note that the superscripts are not needed if there is only one affiliation.

3.3 Abstract and Keywords

Every submission should begin with an abstract of about 150 words (max. 200), followed by a set of keywords. The abstract and keywords should be placed in the left column of the first page under the left half of the title. The abstract should be a concise statement of the problem, approach and conclusions of the work described. It should clearly state the paper's contribution to the field of M&S.

The first set of keywords will be used to index the paper in the proceedings. The second set are used to catalogue the paper in the ACM Digital Library. The latter are entries from the ACM Classification System [3].

3.4 Normal or Body Text

Please use a 10-point Times New Roman font or, if this is unavailable, another proportional font with serifs, as close as possible in appearance to Times New Roman 10-point. The Press 10-point font available to users of Script is a good substitute for Times New Roman. On a Macintosh, use the font named Times not Times New Roman. Please use sans-serif or non-proportional fonts only for special purposes, such as headings or source code text.

3.5 First Page Copyright Notice

This sample word document has the correct SCS copyright notice in place (see page 1, bottom of column 1). Copyright will be held by SCS. Accepted work-in-progress and papers will be distributed in the Conference Publications. They will also be placed in the ACM Digital Library, as well as other prominent digital libraries, where they will remain accessible to thousands of researchers and practitioners worldwide.

3.6 Subsequent Pages

On pages beyond the first, start at the top of the page and continue in double-column format. The two columns on the last page should be as close as possible to equal length.

Figure 1. With caption below, be sure to have a good resolution image (see section 5.1 for image preparation instructions).

3.7 References and Citations

Use a numbered list of references at the end of the article, ordered alphabetically by first author, and referenced by numbers in brackets [2, 4, 5, 7]. Kindly make the text of this section left-justified/ragged-right (instead of fully-justified as in the rest of the document), so that the increasing number of references/citations with web addresses/URLs do not have large word and letter spacing. For papers from conference proceedings, include the title of the paper and an abbreviated name of the conference (e.g., for Interact 2003 proceedings, use *Proc. Interact 2003*). Do not include the location of the conference or the exact date; do include the page numbers if available. See the examples of citations at the end of this document.

Objects	Caption – pre-2002	Caption – 2003 and afterwards
Tables	Above	Below
Figures	Below	Below

Table 1. Table captions should be placed below the table.

	Anyone	SN	Specific	No one
Flight	45%	34%	18%	3%
City	47%	35%	14%	3%

Table 2. Sharing travel plans

Your references should be published materials accessible to the public. Internal technical reports may be cited only if they are easily accessible (i.e., you provide the address for obtaining the report within your citation) and may be obtained by any reader for a nominal fee. Proprietary information may not be cited. Private communications should be acknowledged in the main text, not referenced (e.g., “[Robertson, personal communication]”).

4 SECTIONS

The heading of a section should be in Ariel 9-point bold, all in capitals (`NumberedHeading1` Style in this template file). Use Helvetica if Ariel is not available. Sections should be numbered.

4.1 Subsections

Headings of subsections should be in Ariel 9-point bold with initial letters capitalized (`NumberedHeading2`). Note: For sub-sections and sub-subsections, a word like *the* or *of* is not capitalized unless it is the first word of the heading.

Sub-subsections

Headings for sub-subsections should be in Ariel 9-point italic with initial letters capitalized (`Heading 3`).

5 FIGURES/CAPTIONS

Place figures and tables at the top or bottom of the appropriate column or columns, on the same page as the relevant text (see Figure 1).

A figure or table may extend across both columns to a maximum width of 17.78 cm (7 in.). Captions should be Times New Roman 9-point bold (`Caption` Style in this template file). They should be numbered (e.g., “Table 1” or “Figure 2”), centered and placed beneath the figure or table. Please note that the words “Figure” and “Table” should be spelled out (e.g. use “Figure” rather than “Fig.”) wherever they occur.

Figure 2. Sample of a wide figure. Be sure to place at the top of the page or bottom of the page.

All figures should also include alt text for improved accessibility. In Word, right click the figure, and select Format Picture | Alt Text).

Papers and notes may use color figures, which are included in the page limit; the figures must be readable when printed in black and white in the proceedings.

The paper may be accompanied by a short video figure up to five minutes in length. However, the paper should stand on its own without the video figure, as the video may not be available to everyone who reads the paper.

5.1 Inserting Images

Occasionally MS Word generates larger-than-necessary PDF files when images inserted into the document are manipulated in MS Word. To minimize this problem, first use an image editing tool to resize the image to the appropriate printing resolution (usually 300 dpi), and **then** insert the image into Word using “Insert | Picture | From File..”.

5.2 Table Style

The text of tables will format better if you use the special Table Text style (in this template file). If you do not use this style, then you may want to adjust the vertical spacing of the text in the tables. (In Word, use Format | Paragraph... and then the Line and Page Breaks tab. Generally, text in each field of a table will look better if it has equal amounts of spacing above and below it, as in Table 1.)

For improved accessibility, header rows of tables should be repeated at the top of each page. In Word, right click a header row, and select Table Properties | Row | Repeat as header at the top of each page.

6 LANGUAGE, STYLE AND CONTENT

The written and spoken language of SCS is English. Spelling and punctuation may use any dialect of English (e.g., British, Canadian, US, etc.) provided this is done consistently. Hyphenation is optional. To ensure suitability for an international audience, please pay attention to the following (note that the items in this bulleted list were formatted using

the Bullet Style (in this template file); numbered lists are allowed):

- Write in a straightforward style.
- Try to avoid long or complex sentence structures.
- Briefly define or explain all technical terms that may be unfamiliar to readers.
- Explain all acronyms the first time they are used in your text – e.g., “Digital Signal Processing (DSP)”.
- Explain local references (e.g., not everyone knows all city names in a particular country).
- Explain “insider” comments. Ensure that your whole audience understands any reference whose meaning you do not describe (e.g., do not assume that everyone has used a Macintosh or a particular application).
- Explain colloquial language and puns. Understanding phrases like “red herring” may require a local knowledge of English. Humor and irony are difficult to translate.
- Use unambiguous forms for culturally localized concepts, such as times, dates, currencies and numbers (e.g., “1-5-97” or “5/1/97” may mean 5 January or 1 May and “12/10/11” can be even more confusing, and “seven o’clock” may mean 7:00 am or 7:00 pm). For currencies, indicate english equivalences – e.g., “Participants were paid 10,000 lire, or roughly \$5.”
- Be careful with the use of gender-specific pronouns (*he, she*) and other gendered words (*chairman, manpower, man-months*). Use inclusive language that is gender-neutral (e.g., *she or he, they, s/he, chair, staff, staff-hours, person-years*). See [5] for further advice and examples regarding gender and other personal attributes.
- If possible, use the full (extended) alphabetic character set for names of persons, institutions, and places (e.g., Grønbæk, Lafrenière, Sánchez, Universität, Weißenbach, Züllighoven, Århus, etc.). These characters are already included in most versions of Times, Helvetica, and Arial fonts.

7 PAGE NUMBERING, HEADERS AND FOOTERS

Your final submission **MUST NOT** contain any footer or header information at the top or bottom of each page. The submissions will be paginated in a determined order by the chairs and page numbers added to the pdf during the compiling, indexing, and pagination processes.

8 PRODUCING AND TESTING PDF FILES

We recommend that you produce a PDF version of your submission well before the final deadline. When creating your PDF from Word, ensure that you generate a tagged PDF from improved accessibility. This can be done by using the Adobe Add-in, also called PDFMaker. In Word, select Preferences from the Acrobat ribbon and ensure that “Enable Accessibility and Reflow with tagged Adobe PDF” is selected. You can then generate a tagged PDF by selecting “Create PDF” from the Acrobat ribbon.

Test your PDF file by viewing or printing it with the same software we will use when we receive it, Adobe Acrobat Reader Version 7 (or later). This is widely available at no cost from reference [1]. Note that most reviewers will use a North American/European version of Acrobat reader, which cannot handle documents containing non-North American or non-European fonts (e.g. Asian fonts). Please therefore do not use Asian fonts, and verify this by testing with a North American/European Acrobat reader (obtainable as above). Something as minor as including a space or punctuation character in a two-byte font can render a file unreadable.

9 CONCLUSION

It is important that you write for the SCS audience. Please read previous years’ *Proceedings* to understand the writing style and conventions that successful authors have used. It is particularly important that you state clearly what you have done, not merely what you plan to do, and explain how your

work is different from previously published work, (i.e. what is the unique contribution that your work makes to the field) ? Please consider what the reader will learn from your submission, and how they will find your work useful. If you write with these questions in mind, your work is more likely to be successful, both in being accepted into the Conference, and in influencing the work of our field.

ACKNOWLEDGMENTS

Sample Text: We thank all the volunteers, and all publications support and staff, who wrote and provided helpful comments on previous versions of this document. As well authors 1, 2, & 3 gratefully acknowledge the grant from NSF (#1234-2012-ABC). This whole paragraph is just for example ... Some of the references cited in this paper are included for illustrative purposes only.
